First he lighted a cigarette, which he smoked quickly and nervously. Although his hand was steady and there was a smile upon his lips, the manner in which he smoked told the story of the anxiety which gripped at his heart. As his eyes watched the door through which the jurors had passed, he tried to speak facetiously to those who stood around him. "The jury is out," he said. "The situation, as it now stands, reminds me of a game of poker. I have been dealt cards, but have not yet drawn to my hand to see how I stand in the matter of winning the stake."

But roses did not interest him. As soon as he could without offense lay it aside, he dropped it upon the table at which he was sitting and sighed wearily. When he walked out, he left the rose where he had dropped it.

Antics of Mr. Bailey.

When Judge Armstrong's court opened yesterday morning, Lawyer J. H. Bailey, jr., resumed his address to the jury. It was even more sensational than on the university, a private school for young women, having an enrollment of stusons in the building escaped in safety.

The four-story building, constructed of stone and wood, was located in the Descending from his perch upon the of stone and wood, was located in the center of a seven-acre plot of ground immediately south of Forest park, in the wester limits of the city.

Mr. Loofbourow attacked Sullivan's alibi, declaring that Mrs. Belcher's testimony and the statements of Conductor Logan and Brakeman Harrison of the Oregon Short Line left no doubt that Sullivan was in Salt Lake at the time of the murder and that he testified falsely when he said that he walked from the city before the crime was committed.

SHERIFF'S WIND IS TESTED Petty Thief Gives Him a Chase Over Hill and Dale and Finally

Eureka, March 21.—Sheriff Henroid had quite a chase this morning after one of the petty thieves that have been active lately in stealing things from the cabins of miners, which are at present unoccupied. Lee Hopper's cabin had been broken into some time ago and he had been "laying low" to try and discover the culprit. He received some wind of the whereabouts of his belongings this morning and he and the sheriff went together to the blacksmith shop of the St. Louis-Eureka mine, which is not in operation at to the blacksmith shop of the St. Louis-Eureka mine, which is not in operation at present, and here they found some of the stolen stuff. There were fresh tracks in the vicinity of the shop, which the sheriff immediately took up. While he was following them he chanced to look up toward the top of the Gemini hill and spied his man. He shouted to him to stop, but the man took to his heels. The sheriff having to run up the steep hillside, could make very little headway and the fugitive having the benefit of the down grade, easily got into the city and is now somewhere here in hiding.

Dear Mr. McDonald: I see by the papers that you are still leading and doing things in Salt Lake's commercial world, and so I am sending a mere line to say, Success! Success! to you, and may the world also eat your cocoa. I find your chocolates all over southern California, and I always give them a helping hand. Best wishes to any friends.

Yours sincerely,

KENNETH KERR. McDonald's pure, soluble cocoa is making cocoa drinkers of men and women. Where they formerly drank cocoa at social functions, now they drink it because they like it-BECAUSE IT IS THE HIGHEST GRADE COCOA MADE-a delicious drink of which one never tires.
